

CISS240: Introduction to Programming
Quiz q0704

Name: _____

Score:

This is a closed-book, no C++ compiler, 4-minute quiz.

Q1. Complete the following code fragment so that it prints the user's inputs in *descending* order. You must use the obvious variant of the bubblesort.

```
double x0, x1, x2;
std::cin >> x0 >> x1 >> x2;

// declare one variable here
```

```
std::cout << x0 << ' ' x1 << ' ' << x2 << '\n';
```
